

# ST TROPEZ

A 360° VENDING EXPERIENCE

# ST TROPEZ

## A 360° VENDING EXPERIENCE

### FEATURES AND BENEFITS

- Designed with a retail look and feel which will appeal to today's consumer, the St Tropez has a stylish white interior lit with LED lights, ensuring the product will have maximum stand out
- The robotic lift delivery system catches consumers' attention and makes bending down to pick up your drink a thing of the past
- The St Tropez is highly flexible with the ability to vend a wide variety of bottles, cans and cartons, ensuring consumers can purchase their favourite drinks

### ENVIRONMENTAL FEATURES

- The St Tropez 99 has an A+ energy rating from the European Vending Agency
- Contains LED lights which use around 60% less energy than traditional lights
- Special thermal compound insulation glass reduces heat loss via glass panel
- The chiller temperature can be reduced during quiet periods
- Illumination can be programmed to switch off outside of working hours

### OPTIONS

- Compatible with coin or cashless systems
